DANIEL SLOTE & CO.

MANUFACTURERS OF

BLANK BOOKS,

THE MARK TWAIN SCRAP BOOKS,

PATENT FLAT BACK, PLAT OPENING INVOICE BOOKS

AND GUMMED STUB FILES,

119 & 121 WILLIAM STREET,

NEW YORK CITY.

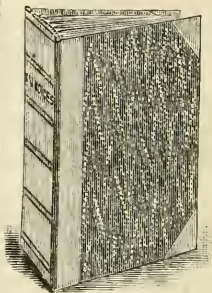

P. O. Box 21.

Telephone Number :
CORTLANDT 317.

OUR PATENT BACKS.

ROUND AND FLAT.

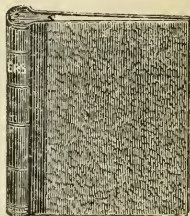

For Invoice and Scrap Books, Stub Reference Files, Sample Books and Druggists' Prescription Books.

FLAT BACK.

ROUND BACK.

STUB FILE.

THE ROUND BACK is a flexible, strong and gracefully formed back, and is made to stand the severe strain on the binding which is usually given this class of work.

IN THE FLAT BACK, the backs are made stiff and firm, retain their shape while in use, and present a regular and even surface for reference when filed away.

In the manufacture of the above Patent Backs, the method of arranging and fastening the sections, secures them firmly, and by their equal distribution on the back dispenses with the common support and strain on thread and bands, doing away with the labor and necessary cost attending the use of guards, as in the old style Invoice and Scrap Books.

We are the sole owners and manufacturers of the Patent for THE BURNET "WIRE LOCK" INVOICE, SCRAP AND SAMPLE BOOK, in which the sections are secured by a system of wire staples, obviating the necessity of short leaves or guards, and arranged so as to renew a sheet or a section without injury to the book, by which means, if desired, the cover can at any time be re-filled.

CAUTION.

The arrangement or distribution of groups of leaves secured to a backing with intervening spaces, as in our Invoices, Scrap Books and Stub Files, is fully covered by our several Letters Patent, and we shall hold responsible for damages and royalty all parties manufacturing, selling or using said inventions unless authorized by us.

DESCRIPTIVE CATALOGUE

AND

PRICE LIST

OF

DANIEL SLOTE & Co.,

BLANK BOOK MANUFACTURERS,

119 & 121 WILLIAM ST.,

NEW YORK CITY.

P. O. Box 21.

Telephone Number :
NASSAU, 317.

TO THE TRADE.

Great care is taken in our Catalogues to fully describe the characteristics of all goods manufactured by us.

Our prices are uniformly based on the manufacture in Large Quantities of goods as described.

Books varying from our descriptions, even very slightly, are necessarily made up specially.

Special manufacture greatly increases the cost as compared with regular stock, unless the order is sufficient in quantity to be classed as "regular."

These facts are universally acknowledged by the Trade. In view of them we shall hereafter class all orders for Blank Books, differing in any manner from goods as described in our List as Job Work or Work to Special Order according to its character.

On all Job or Special Work we will give an estimate if desired, or if no estimate be required will make up at as reasonable an advance in price over similar regular stock as the specialty of the work will warrant.

We trust these facts will be borne in mind by the Trade when selling goods based on our Catalogues but differing from our description.

 See also remarks on page 192.

RE-NUMBERING OF HALF, THREE-QUARTER AND FULL BOUNDS.

Attention is particularly invited to the plan of re-numbering used in our distinctive lines of Half, Three-quarter and Full Bounds on the pages following. As in small goods so in these larger classes, each article in any way differing from another, either in Binding, Ruling, or Thickness, is given a distinctive number. Thus not only has every line a number which designates the whole line, but each quire of each ruling of each binding has a special number conformable to the initial figure and by which any book can be ordered by a number without a word of description.

As our new plan is something of an innovation on the practice which has hitherto obtained with the trade, we have so arranged it that our customers may exercise their preference and use only the initial designation, adding the description as they have heretofore done, or they may use the actual number designating the particular article required.

The old form necessitated the use of many descriptive words under all circumstances. The new form has the advantage of rendering the use of any descriptive words unnecessary. For example, our Petty Account old No. 847 (see page 45), though made in Days only, is in several quires, and it has always been ordered as Petty Account No. 847, 2 quires. The new initial number for this line is 6000. The book can still be ordered as Petty Account No. 6000, 2 quires. But if our new number is used the order would simply be for 6012 or 6013 or 6014 : the number at once covering the particular item required. Or, take our Cap half-bound old No. 2 (see page 52) in various rulings and quires. It has been always ordered hitherto : Half-bound No. 2 Day 2 Quires ; S. E. Ledger 8 Quires, &c. The new initial number of this line is 15400, and the books can still be ordered by the initial number, adding the ruling and the quires, thus : 15400 Day 2 Quires : S. E. Ledger 8 Quires. But by using our new system of numbering the same would read: 15412 ; 15428.

It will be observed, also, that care has been taken that the last figure in each case shall, in every instance possible, express the number of quires, and that the figure preceding the last shall, in every possible instance, express the ruling; thus: 6012 means a 2 quire Day of the line newly numbered 6000,—the final 2 universally representing the 2 quire thickness, and the 1 preceding it representing Day Book ruling. And so, uniformly, in every other line.

PETTY ACCOUNTS.

All paged except No. 6000. All Records without marginal line; Days and S. E. Ledgers ruled single \$ and cents.

THE PARIS PRIZE BOOKS.

WESTON'S LINEN RECORD & LEDGER PAPER

USED IN THE MANUFACTURE OF THE PARIS PRIZE BOOKS.

The Grand Prize Gold Medal was Awarded, and Medal of Honor and Perfection was Recommended, Paris, 1878,

FOR

WESTON'S LEDGER AND RECORD PAPER,

and it has also received the *highest premium and medal* over all others from

ADELAIDE..... Gold	MASS. CHARITABLE. ..Silver	CENTENNIAL Bronze
AM. INSTITUTE..... Bronze	CINCINNATI..... Silver	FRANKLIN INSTITUTE.. Silver
AM. INSTITUTE..... Silver	ATLANTA..... Gold	LOUISVILLE..... Silver
MASS. CHARITABLE, Medal of Improvement.....	AM. INSTITUTE, Medal of Progress.....	NEW ENG. SOCIETY.. Silver
		ST. LOUIS..... Silver

The Advantages Claimed for this Paper are as follows :

1. It contains more LINEN than any other Ledger Paper, has a longer fibre, and is, consequently, tougher.
2. Having a harder and better body, it frays less in erasure, so that by simply using the rubber after the eraser, the ink is prevented from spreading.
3. It is more uniform in Weight, Color and Finish.
4. It never cockles if properly bound.
5. Its chemical action upon Ink is such, that it both writes and rules up better.

This paper is *Double Sized*, and will stand any climate or the most acid of fluid inks.

Each sheet is water marked with name "WESTON'S LINEN RECORD," and date.

THE PATENT ROUND BACK.

INVOICE BOOK AND BACK.

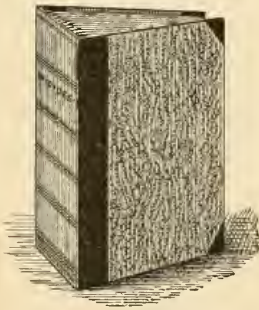

STUB FILE.

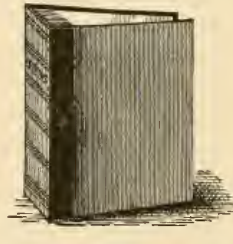

SCRAP BOOK.

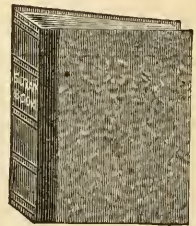

THE PATENT FLAT BACK.

INVOICE BOOK.

STUB FILE.

SCRAP BOOK.

The Round Back is a flexible, strong and gracefully formed back, and is made to stand the severe strain on the binding which is usually given this class of work.

In the Flat Back, the backs are made stiff and firm, retain their shape while in use, and present a regular and even surface for reference when filed away.

In the manufacture of the above Patent Backs, the method of arranging and fastening the sections, in addition to the muslin strip in the centre of each section, secures them firmly, and by their equal distribution on the back dispenses with the common support and strain on thread and bands, doing away with the labor and necessary cost attending the use of guards, as in the old style Invoice and Scrap Book.

CARD ALBUMS.

All Oblong; with Reversible Folded Leaves.

This form of Album is much stronger, and will withstand rough handling far better, than the ordinary form of Scrap Book. It is not only designed for collections of Cards and Pictures, but it is especially adapted for use as a Sample Book for the display of patterns of Silks, Ribbons, Cloths, Laces, Embroideries, and a multitude of other articles. The peculiar form of these books gives a great advantage for the display of its contents. It can be examined leaf by leaf, as in an ordinary book, or the whole book can be opened out in panoramic form, and the contents of all the leaves be compared side by side. All the leaves in the book being formed of one continuous piece, they cannot tear apart, or pull out, or loosen.

PHOTOGRAPH or CARD ALBUMS.

PATENT No. 315,327.

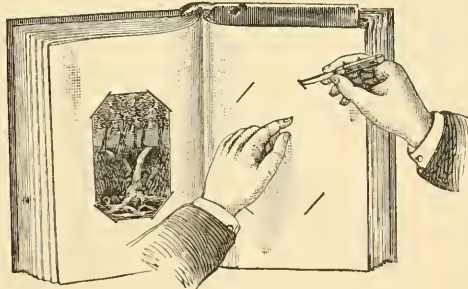

Leaves with folded edge and with Interleaving Board.

This invention is a combination of Photograph Album, Card Album, Pattern Book and Scrap Book.

The folded edge enables the user to arrange Photos, Cards, Pictures, etc., without the use of adhesive material. The article to be preserved can, by the arrangement of this book, be permanently or temporarily secured. The removal can be effected without the slightest injury.

As a sample book for displaying Christmas, New Year, Birthday and Fancy Cards, the use of this Album would prove very economical, as the cards can be taken out, after serving their purpose, without injury.

Should the Album or any page of it be required for use as a Scrap Book the ordinary form of scrap book is produced by simply cutting the folded edge of the leaves.

DIRECTIONS FOR USE.

(SEE LARGE CUT).

Lay the article to be secured on the page and with a pencil point make two dots from $\frac{1}{4}$ to $\frac{1}{2}$ inch from the top and side of each corner—eight dots in all.

Rule a diagonal line from dot to dot for each corner, place the cutting board between the folded leaf and cut the ruled lines for corner holders. The article can then be secured by placing each corner in the diagonal slit without in any way soiling it, and allowing it to be removed at pleasure.

FILES.

 For Patent Gummed Stub Reference Files, see page 101.

CLOSED.

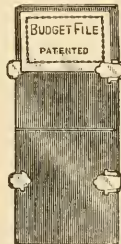

THE READY REFERENCE FILE.

OPEN.

The Ready Reference File was the pioneer of the present multitudinous variety of Files. The fact that severe competition has not forced it out of the market bears substantial testimony to its merit. It is made of heavy boards, covered with cloth, and fastened with stationary bands of elastic tape.

NEW No.	Old No.	PRICE.	Description.	Outside Measure.
		Per Doz.

32906	104 $\frac{1}{2}$	3.25	.. "	4 x 10

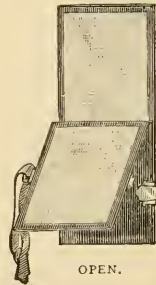

CLOSED.

THE BUDGET FILE.

PATENTED

JAN. 30, 1872.

OPEN.

The Budget File is an improvement on the Ready Reference in the fastening, which is of Heavy India Rubber, one-half inch wide, of a quality that insures their lasting power, fastened with brass fastenings, with a catch. By means of the catch the connection can be readily broken or restored, and the File can be completely opened and closed at will.

MARK TWAIN'S

PATENT

Adhesive Page Scrap Book

Has become a universal favorite, and bids fair to supersede all other Scrap Books. Its advantages are manifold.

It is a combination of everything desirable in a Scrap Book. The convenience of the ready-gummed page, and the simplicity of the arrangement for pasting, is such, that those who once use this Scrap Book never return to the old style.

It stands the test of climate, having been in active use, and subjected to all the various natural changes of atmosphere during several years, with complete success.

It avoids all the annoyances of the old method of Scrap Preserving, requiring no paste or mucilage. The pages are prepared for instant and convenient use. The simple application of slight moisture on the gummed lines with a small sponge, brush, or the finger, is all that is required, previous to attaching a scrap or picture.

A smooth page of scraps is secured by the use of a paper specially manufactured for this book, which retains its even surface after a scrap is pasted. This, with the ready-gummed page, prevents the ruffled and wrinkled appearance of the papers commonly used, which appear well at first, but shrink and draw on the application of paste or gum.

To travelers and tourists it is particularly desirable, being Scrap Book and Paste Pot combined. In using the old-fashioned scrap book, travelers have hitherto been compelled to carry a bottle of mucilage, the breaking of which among one's baggage is far from pleasant. This disagreeable risk is avoided by the use of the Mark Twain Scrap Book.

The ungummed page scrap book is at times of no service whatever, if paste or mucilage be not at hand when wanted. With a Mark Twain, no such vexatious difficulty can possibly occur.

The gummed columns are arranged for either long or short paragraphs. A clipping the length of the column may be secured by slightly moistening the side down lines, and for short extracts the cross lines may be used. The gummed lines also serve as guides for placing the scraps.

The Pocket Scrap Books (Nos. 33000-8,) are convenient for carrying in the pocket or traveling bag, and very handy for securing extracts which are frequently met with in traveling, and if not saved at the time are generally lost. Useful for railroad men, commercial travelers, and business men.

The Author's edition (Nos. 33320-2,) is gummed with two columns, with wide margins for references, marginal notes, &c., and is boxed, with Pockets and Scissors. No. 33320 is indexed in front; No. 33322 is indexed through with Leather Tags.

Children are great makers of scrap books, and take special delight in their use, and they do not fail to appreciate the good points and the many conveniences of the *Mark Twain Scrap Book*.

The preparation of paste is unnecessary, as each page is complete in itself.

Little fingers are free from being sticky.

The carpet is insured against an upset paste-pot.

The usual litter and waste and stickiness about the house is avoided.

Parents as well as children enjoy the benefits of this improvement over the old-fashioned scrap book, and are as ready to heartily commend it as the children are to use it.

A little water and a brush makes the book immediately available.

All the Mark Twain Scrap Books are neatly packed; the Pocket edition wrapped in packages of half a dozen. Of the others, the smaller books are wrapped singly; the more expensive ones, put up in neat boxes.

Mark Twain's Description of his Scrap Book.

HARTFORD, *Monday Evening.*

MY DEAR SLOTE:—I have invented and patented a new Scrap Book, not to make money out of it, but to economize the profanity of this country. You know that when the average man wants to put something in his scrap book he can't find his paste—then he swears; or if he finds it, it is dried so hard that it is only fit to eat—then he swears; if he uses mucilage it mingles with the ink, and next year he can't read his scrap—the result is barrels and barrels of profanity. This can all be saved and devoted to other irritating things, where it will do more real and lasting good, simply by substituting my self-pasting Scrap Book for the old-fashioned one.

If Messrs. Slote & Co. wish to publish this Scrap Book of mine, I shall be willing. You see by the above paragraph that it is a sound moral work, and this will commend it to editors and clergymen, and in fact to all right feeling people. If you want testimonials I can get them, and of the best sort, and from the best people. One of the most refined and cultivated young ladies in Hartford (daughter of a clergyman) told me herself, with grateful tears standing in her eyes, that since she began using my Scrap Book she has not sworn a single oath.

Yours truly,

MARK TWAIN.

WHAT THE NEWSPAPERS SAY

OF THE MERITS OF THE MARK TWAIN SCRAP BOOK.

"It saves sticky fingers and ruffled pictures or scraps. It is a capital invention."
—*Harper's Monthly*.

"It is just what a scrap-gathering world has been waiting for."—*Buffalo Courier*.

"It is everything that can be desired; neat, convenient and simple. We recommend it to all."—*Appleton's Journal*.

"There is a business flavor about the book that is absolutely charming."—*Elmira Daily Gazette*.

"The work will hold scraps with intense tenacity and is commendable in all respects."—*Scientific American*.

"An excellent substitute for the ordinary Scrap Book."—*N. Y. Evening Post*.

"Always handy, always neat; no smearing, no rendering of the scraps so transparent as to make the reverse side plainer than the side you want to read."—*Christian at Work*.

"To use it, it is only necessary to moisten the gum and immediately attach the scrap. Nothing could be more simple or convenient."—*Brooklyn Union*.

"All persons who are in the habit of collecting scraps will find it to be a mighty handy thing to have about the house."—*Philadelphia Evening Telegraph*.

"No library is complete without a copy of the Bible, Shakespeare and Mark Twain's Scrap Book."—*Norristown Herald*.

"It becomes as easy to file away scraps as it is to stamp a letter."—*Baltimore Gazette*.

"All scrap-gatherers pronounce it to be the thing they have been waiting for. It is simply indispensable to them."—*Atlanta Constitution*.

"We have at length found a Scrap Book which answers every requirement."—*Religious Herald, Richmond, Va*.

"Teachers, Superintendents, it is just what you have long been wanting."—*Sunday School Worker, Wilmington, Del.*

"A decided convenience."—*New Orleans Picayune*.

"No paste, no mucilage, but a little water and a brush, and you have your nice tid-bits preserved in a well-bound volume."—*New Orleans Times*.

"It cannot fail to come into general use, as it is cleaner, more handy, and more desirable than any other contrivance of its kind at present before the public."—*Boston Saturday Evening Gazette*.

"A more convenient book for the purpose could not be desired."—*Cincinnati Daily Gazette*.

"It is the most convenient possible of Scrap Books."—*Portland (Maine) Transcript*

"It is a valuable book for purifying the domestic atmosphere, and, being self-acting, saves the employment of an assistant. It contains nothing that the most fastidious person could object to, and is, to be frank and manly, the best thing of any age—mucilage particularly."—*Danbury News*.

"So prepared that not the slightest inconvenience would be met with in securing the clippings in a most attractive and convenient form."—*Commercial Advertiser, Chicago*.

"The book is handsomely bound, and will be an ornament to any centre-table, as well as a useful article for preserving extracts. It will be widely circulated and used."—*St. Louis Globe Democrat*.

"It is so convenient and neat, that the wonder is how the world has got along without it all these many thousand years."—*Washington Evening Star*.

"It is thoroughly practical and useful, and is adapted to all ages, sexes and conditions in life. A child can understand it, while a philosopher would be delighted with it. It is called 'Mark Twain's Scrap Book,' and is the best thing in that line ever invented."—*Saturday Evening Call, Peoria, Ills.*

THE PATENT

ADHESIVE WAFER SCRAP BOOK.

These Scrap Books have gummed sheets bound in the back of each book, ruled in squares to be cut for wafers. These may be used in place of mucilage by slightly moistening both sides, and placing them between the article to be secured and the page. The leaves are of gray colored paper, and in addition to their adaptability for all practical scrap book uses, make an excellent medium for preserving specimens of Fancy Cards.

Patented December 19, 1876.

 For Plain Page Scrap Books see Pages 77-81.

ADHESIVE STUB REFERENCE FILES.

WITH PATENT BACKS.

Much complaint is made of the want of adhesiveness in the substance generally used in what are known as Gum Stub Files, and users are seldom able to depend on them without the aid of additional mucilage. We especially commend the sensitiveness and tenacity of our Adhesive preparation.

Our special experience in the use of Adhesive substances as the manufacturers of the only books with full gummed pages made in the world (the Mark Twain Scrap Books) is a guarantee of the excellence of our Adhesive Files.

This, together with the convenience which our Patent Backs give for the free use of each leaf, secures the more ready filing of papers in ours than in any other form of narrow leaf files.

The advantages of both our Patent Backs,—Round and Flat,—as used in our Files, will be understood at a glance by reference to the illustrations and descriptions of them on page 76 of this catalogue.

The increasing demand for both styles of our Files is the truest index to their popularity with the trade, and demonstrates the public appreciation of them.

The best recommendation of our Patent Round Back File will be found in the fact of its adoption by the Treasury and Post Office Departments at Washington, which selected them in competition with all other similar manufactures as the superior in the test of practical use, quality and price.

The following unsolicited testimonial from the stationer who furnished our Files under his contract with the Government, speaks for itself :

* * "The Treasury are very much pleased with your Stub File—at the way they are made and, also, with the manner in which they are put up."

ADHESIVE STUB REFERENCE FILES.

FOUNTAIN PENS.

PALMER'S DUPLEX.

See Illustration. 

Patented March 9, 1886, and November 16, 1886.

DANIEL SLOTE & CO., Sole Agents.

WHAT THE PALMER DUPLEX FOUNTAIN PEN IS.

An ordinary-shaped or stub-pointed Gold Pen and Automatic Fountain Holder. Sure in operation ; clean and perfect in use. The **latest improved** and the **cheapest first-class** fountain pen before the public. When not in use the ink returns to the reservoir in the hollow handle—this prevents the formation of a sediment upon the pen and overcomes a defect common to this class of Pens. Can be used the same as an ordinary pen. Can be carried in the pocket point up without overflowing.

FOUNTAIN PEN FACTS!

FIRST.—The complete Pen and Fountain Holder, as reliable as the ordinary pen, because ink is supplied to **both** sides of the pen points, similar to a common dipped pen.

SECOND.—The supply of ink regulated by the manipulation of the pen in the act of writing being entirely automatic, no valves, wires, vents, etc., to regulate.

THIRD.—The Fountain Holder constructed with only **three pieces** which operate as a double or duplex feed ; perfection and simplicity.

FOURTH.—Natural form to Pen and Holder. The pen itself 14k. Gold of the best make, the holder of first quality vulcanized rubber, chased and perfectly fitted.

FIFTH.—Complete individuality given to the hand writing ; the **bottom** feed for fine lines, and the **top** feed for heavy or shading lines.

SIXTH.—Can be used as a dipped pen as well as a fountain ; for dipping only adds to the supply of ink.

SEVENTH.—Refilled, or the pen removed, easily, without soiling the fingers, or requiring an expert to adjust.

IN BRIEF:

A natural-shaped Pen and Holder, having
A natural supply of ink, producing
A natural hand writing.

Palmer's Duplex Fountain Pen.

STYLOGRAPHIC

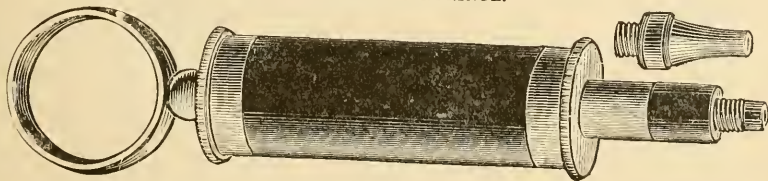

Pen Filler, Cleaning Needle and Syringe.

The *Stylographic Pen Filler* is expressly designed to transfer the ink from the bottle to the Pen. It is indispensable to any user of a Stylographic Pen who cares for cleanliness.

The *Cleaning Needle* is intended for the purpose of cleaning the Stylographic Pen should it become clogged from any cause, especially in the finer parts. It is a very necessary adjunct to the Pen.

The *Stylographic Syringe* is especially designed for the thorough cleansing of the Stylographic Pen. It will be found not only a welcome and valuable aid to the Agent and Dealer, but a great convenience to the user of a single Pen. (See Illustration)

STYLOGRAPHIC INKS.

THE NEW "A. T. CROSS" STYLOGRAPHIC INK.

This Ink is claimed to be one of the finest products of the chemist's art that has ever been compounded. In its preparation, use is made of a recently-discovered imported chemical that is entirely new to this country, and its distinctive feature is the rare combination of fluidity coupled with great density; hence its adaptability for use in the Stylographic Pen. As a proof of this last-named property, it may be mentioned that one quart of this ink will make a gallon of good ordinary writing ink, simply by the addition of water.

The cut shows style of bottle containing the A. T. Cross Stylographic Ink. It has a Fluted Stand, Enamelled Stopper, and Perforated Cork, the Perforated Cork giving a place for the filler when not in use, which is found to be a much needed improvement, and promoter of cleanly usage.

JET BLACK INK.

The Jet Black Ink answers all the requirements for use in a Stylographic Pen. It is done up in Round Green Glass. (See Illustration. )

SCHOOL RECORDS.

Our Series of School Records and Reports is acknowledged to be the most complete and practical published, as is evinced by the fact of their having been for years exclusively adopted for use in the Public Schools of New York City and Brooklyn.

All are of extra paper, except No. 35012 which is super, ruled to special patterns and with printed headings adapted to the particular purpose for which they are designed.

Most of the New York City forms were compiled by Thomas F. Harrison, Assistant Superintendent of Public Schools, New York City, and all have been approved by the Principals of Schools both in New York City and Brooklyn. Nearly all are Copyrighted, and any of them may be used by School Teachers in any section of the country.

NEW YORK CITY FORMS.

THE McNARY RECORD BOOKS.

Prepared by John G. McNary, Principal of Grammar School No. 1, New York City. *Copyrighted.*

INTRODUCTION.

The object of this RECORD BOOK is to enable teachers to collect, with as little labor as possible, valuable materials for self-improvement in professional work. It furnishes an easy method of keeping a systematic record of all lessons each day, and of all memoranda derived from the teacher's own experience, that may be useful in the business of instruction.

It is not sufficient that a teacher has been well instructed in the branches of study that are to be taught. A knowledge of the best methods of teaching, and the ability to use these methods are also indispensable to success.

Since no teacher, not even the most successful, professes to have reached the highest possible standard of excellence, it certainly is a wise plan for all teachers to study their methods, and to preserve records of them, in order afterwards carefully to revise, and, whenever it is possible, to improve them.

An observant teacher will always be able, without much trouble, by a critical study of his daily work,—from the class as a whole, from the habits of individual pupils, from the subjects of the lessons, or from the peculiar features of any recitation,—to gain memoranda upon many points that must prove of great service in rendering the performance of his duty less irksome and more and more successful.

The many advantages to be derived by principals of schools from this RECORD BOOK are obvious, and need hardly to be enumerated in this place. In controlling the instruction in the several grades it will assuredly be a most valuable auxiliary. For, by an inspection of these records every week, even for a few moments only, a continual supervision of the progress in : l the classes may, without difficulty, be regularly maintained. The records themselves can easily be verified by occasional examinations of classes, and errors in methods of teaching, when discovered, may be at once corrected. While by the use of the teacher's notes in the RECORD BOOK the semi-annual examinations by principals, for the promotion of pupils when the grades are completed, may be very greatly facilitated.

It is believed that, when this RECORD BOOK is faithfully kept, all teachers will find it to be not only the best means of improving methods of teaching, but also the basis of constant progress and the way to certain and more satisfactory results.

THERMOMETRICAL RECORD CARD.

For Record of Temperature in School and Class Room.

(Copyrighted by W. W. Davis.)

The Record Card is designed to assist the Teacher in obtaining and maintaining a uniform Temperature in the School Room; a point of great importance both to Teacher and Pupil. It is of heavy Card Board, with Brass Screw Hook and Space in Center of Card for the hanging of an ordinary Thermometer, with Appropriate Headings and Rulings. The great value of this arrangement is fully attested by its use in the Schools of New York and Brooklyn.

EXERCISE BLANKS.

For Exercise and Composition Books see Pages 25-8.

SPELLING—DICTATION—COMPOSITION—GRAMMAR—ARITHMETIC— DRAWING.

The increasing attention to written exercises in almost all school studies has created a demand for Blanks, adapted to the subject and cheap in price. With the change from oral to written lessons, comes the complaint of poor and illegible writing. In the lower grades, indeed, the pupils are often required to write spelling lessons before they have ever seen a copy book. Our whole Series of Blanks, especially those used for Spelling and Composition are designed to combine instruction in penmanship with the spelling and other written exercises, and place before the eye of the pupil perfect models of script letters and numerals for imitation. They are not designed to supersede copy books but to supplement them, and afford the teacher facilities for reiterating and applying the specific instruction of the writing lesson in the various written exercises of the school-room.

Our Exercise Blanks are all in use in the Schools of New York City and Brooklyn, but are adapted to use in any locality. They have been prepared by teachers of experience, including Prof. Wm. Harkins, late Superintendent of Schools at Dunkirk, N. Y., and Charles Claghorn, Esq., Principal of the Bryant & Stratton Commercial College, Brooklyn, N. Y.

All are of good quality white paper, except the Combination Series and Claghorn's Arithmetic Blanks, which are of best quality Manilla, and all are copyrighted.

CLAGHORN'S SERIES—COMPOSITION BLANKS.

This Series of Composition Blanks is designed for use in preparing Compositions of any kind. They are faint ruled, and have two narrow and one wide down column, which are also faint line ruling. The Manilla Covered books have printed on cover: An Introduction to Composition; How to Write; How to Correct; and Rules for the use of Capitals and Punctuation Marks. The Press Board covered books have printed on the fly-leaves all the Suggestions and Rules contained on the Manilla Covers, and in addition, Rules for Spelling.

EXERCISE BLANKS.

Claghorn's Series—Dictation Blanks and Tablets.

Claghorn's Series of Dictation Blanks (both the Book and Tablet form) have been specially prepared to meet the demands of a large and growing class of teachers, who believe that written recitations in spelling, produce better results than oral ones, for the following reasons:

FIRST.—They cultivate the *eye more* and the *ear less*, which is a great advantage, since it is the eye, and not the ear, that must be trained to enable us to avoid mistakes in spelling.

SECOND.—They largely increase the pupil's *practice* in *penmanship*.

THIRD.—They afford a means of so *thoroughly testing* him, that, unless he has carefully prepared his lesson, it is impossible for him to escape failure.

FOURTH.—They are fairer tests of *comparative merit*,—a fact which scholars are not slow to appreciate; for, whereas by the oral method, one scholar fails because he chances to get a hard word, and another succeeds for the opposite reason, by this method, all who fail, fail on the same test, and for the same reason,—a lack of proper preparation.

The Manilla Covered Blanks have printed on the covers full Rules for Spelling; the use of Capital letters; and for Punctuation. The Press Board covered book has the same Rules, with a few of the more important Definitions, and Rules for Syllabication, printed on the fly-leaves.

The Tablets have all the Rules for Spelling printed on the back.

CLAGHORN'S SERIES—Bookkeeping Blanks.

THE UNIVERSAL SERIES.—(Copyrighted.)

This Series of Bookkeeping Blanks is especially adapted to Common Schools, Academies, and other Institutions where Bookkeeping is taught in classes. They are of uniform size, convenient for handling, of the best quality of paper, and reasonable in price. They are adapted to either Single or Double Entry, and may be used with any Text Book. They contain Business Forms of the most recent date, with models of the work to be done by the Pupils, and Suggestions both to Teachers and Pupils, carefully prepared, printed in handsome script, on the covers.

The Models, together with the Suggestions, being immediately before the eye, the Student is enabled to produce perfect work without continual reference to the Text Book, or requiring the constant supervision of the Teacher as in the use of the ordinary Blanks. The plan of these Books also saves the labor of the Teacher in writing out Models or Forms either on the Blackboard or on Paper. It will be found of great assistance to those Teachers who having had little or no experience in Bookkeeping, are required to conduct a class in this Study. And the Model Forms will prove of value to others than Students or Bookkeepers.

NEW No.	Old No.	PRICE.	Binding and Description.
		Each.	
		.10	HEAVY MANILLA COVERS.—Printed.
35650	..		Crown 4to. Extra Paper. Outside Measure, $6\frac{7}{8} \times 8\frac{1}{4}$ The Day Book. <i>Contains</i> Model Forms for both Single and Double Entry, and <i>Also</i> Day Book and Journal combined, with Suggestions for use. <i>Also</i> , Forms of Check and Draft.

EXERCISE BLANKS.

The Universal Graded Grammar Series.

By Prof. WILLIAM HARKINS, Supt. Schools, Dunkirk, N. Y.

These Blanks are a new departure in teaching Grammar, and what every School needs. They combine Practice and Theory, insure accuracy, and are just the thing for Written Examinations. Parsing, Analysis, Composition, Punctuation, Capital Letters,—all these important points are taught at once. The Blanks may be used with or without any Series of Grammars.

POINTS OF ADVANTAGE.

1. The Blanks are cheap, about the cost of ordinary paper.
2. They are simple, easily understood by the pupil.
3. They make the usually dry study of Grammar attractive and delightful to pupils, by making it more *objective*.
4. They teach Grammar and Sentence-Building at the same time.
5. They develop powers of judgment and classification in the pupil as nothing else can.
6. They are a great convenience to the teacher and pupil.
7. They are *universal* and *complete* in themselves; they may be used entirely without Grammars or Text Books now in use.
8. They are closely graded, and only *three* books.
9. The rules and definitions are the simplest ever presented, while at the same time logical and philosophical. They *aid the judgment* by their natural order of expression.
10. Finally, by combining *written* work in the *oral* instruction, children are made *accurate* in whatever they pass over.

 In this connection attention is called to Prof. Harkins' "Hand-book of Select Sentences," designed particularly to accompany these Blanks. For which see Page 160.

EXERCISE BLANKS.

THE MODEL SCHOOL TABLET.

This form of Exercise Blank or Tablet is designed not only for the purposes and practical uses which the ordinary forms are intended for, but by the introduction of several new and novel features the utility of the Blank is greatly increased.

The paper used in the Model School Tablet is of the best quality. Each Blank or Tablet consists of Sheets securely fastened together at the top with wire staples; covered with a strip of Manilla paper to prevent the scratching of the desk; and Backed with a covering of Heavy Manilla. The leaves are Perforated at the Binding Line so that they may be easily torn off, and both sides of the paper be used, or imperfect Exercises be destroyed. Three eyelet holes are punched below the perforation, by means of which such leaves as are worth preserving may be fastened together anew.

As Practice or Trial Paper the Model Tablet has many advantages over the ordinary form. Such Paper is usually furnished in loose sheets, and in the hands of children loose sheets are too often scattered, mislaid, or found on the School room floor. The sheets in the Model Tablet being fastened together prevents that result.

In the use of any ordinary Exercise Blank or Tablet the removal of a blotted or soiled page tends to despoil the whole Book, and is a source of discouragement to such Pupils as have the ambition to show clean pages in their exercises. This annoyance is obviated by the form of binding the Model Blank; that, and the perforations, permitting the detachment of any one or more sheets, even from the center of the Blank, without spoiling the Tablet or any other sheet in it.

These advantages, with the eyeletting by which such sheets as it may be desirable to preserve can be rebound, makes the use of the Model Blank or Tablet more economical and pleasing for the Scholar, and affords a great degree of relief to the Teacher as an aid in its way to the preservation of order in the School room, and the inculcation of orderly habits in the Pupils.

EXERCISE BLANKS.

MODEL SCHOOL TABLET.—(Concluded.)

Patented October 2d, 1883.

EXERCISE BLANKS.

THE PERFECTED SCHOOL TABLET.

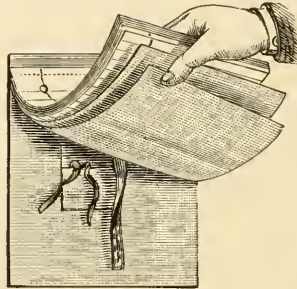

(Patented October 2d, 1883.)

A BLANK WITHIN A BLANK.

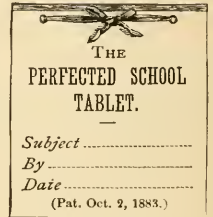

The Perfected School Blank or Tablet is an improvement on the Model Tablet. Made in the same form as the Model Blank, with Perforated and Eyeletted leaves,—Bound with covered Staples, and Backed with Heavy Manilla,—the Perfected Blank has attached to it a complete new front and back cover of Heavy Manilla, with Binding Ribbon, and top strip of Fancy Paper gummed on one side, by means of which a complete new book may be made by the Pupil of such portions of the original Blank as it is desired to preserve.

No. 1, Front View.

No. 2, Open, showing parts.

No. 3, Rebound.

The above Illustrations of the Perfected Blank show :—

No. 1. The face of the Blank before use, showing Binding, Perforations and Eyelet holes.

No. 2. The same with the Back Cover exposed, showing the New Covers ; also the Binding Ribbon, and the Paper strip to be used to bind the whole together at the top.

No. 3. The face of the Blank as re-bound.

The advantages of this form of Blank or Tablet for the preservation of the Perfected work of the Pupil, with all conveniences at hand for the purpose indicated, must be so apparent as to need no comment. As these advantages will be of utility mostly in Composition and Drawing, the line is confined to those Exercises.

NEW No.	Old No.	PRICE.	Binding and Description.

EXERCISE BLANKS.

The Combination Series.—Writing, Spelling and Composition.

The series of Combination Blanks are so called, having the combined object of assisting the Pupil in the Study and Practice of Writing, Spelling and Composition.

They consist of a Series of seven numbers, and are made of Manilla paper, because, while it is cheaper and equally good for writing, *it is far less trying to the eyes.*

They are ruled wider than ordinary blanks, that more attention may be given to the writing and that the written page may present a better appearance.

They present on every page correct models of letters and figures for imitation.

They present a simple system of criticism of the penmanship by a series of arbitrary signs indicating obvious faults.

Each number has full Suggestions, Illustrations, Rules and Examples. Each page is printed at head and on sides and ruled for the special purpose for which it is designed, and each book contains twenty-four pages.

NEW No.	Old No.	PRICE. Per Doz.	Binding and Description.
PRINTED MANILLA COVERS.			
35850	1	.72	Words ; two columns to the Page. Presents the model letters in perpendicular columns on the inside margin of the page, and is ruled for two columns of words, with space for rewriting misspelled words under " <i>Corrections</i> " at the bottom, or, if preferred, for writing several sentences to illustrate the proper use of certain words in the lesson. <i>Printed Headings and Double Ruled Faint Lines..</i> Outside Measure, 6 x 9.
35852	1½	.72	Words ; two columns to the Page. Same as Preceding, except in Ruling. <i>Printed Headings and Single Ruled Faint Lines..</i> Outside Measure, 6 x 9.
35854	2	.72	Miscellaneous Written Exercises. Designed for the miscellaneous writing of the lower grade pupils and presents, as in No. 1, correct models of letters and figures for imitation. <i>Printed Headings and Single Ruled Faint Lines..</i> Outside Measure, 6 x 9.
35856	3	.96	Words ; three columns to the Page. Has the model letters and figures as in No. 1, and is ruled for three columns of words, with space at the bottom for corrections of misspelled words, or, if the teacher prefer, for several sentences illustrating the use of words in the lesson. <i>Printed Headings and Double Ruled Faint Lines..</i> Outside Measure, 7¼ x 9.
35858	3½	.96	Words ; three columns to the Page. Same as Preceding, except in Ruling. <i>Printed Headings and Single Ruled Faint Lines..</i> Outside Measure, 7¼ x 9.

THE COMBINATION SERIES.—Printed Manilla Covers.—(Concluded).

NEW No.	Old No.	PRICE.	Binding and Description.
		Per Doz.	
35860	4	.96	Words and Definitions. Designed for spelling and definitions. The space for definitions is sufficient, should the teacher desire, for the pupils to write short sentences showing the proper use of the words. <i>Printed Headings and Single Ruled Faint Lines..</i> Outside Measure, $7\frac{3}{4}$ x 9.
35862	5	.96	Composition, Letter Writing, etc. Designed for topical reviews of History, Geography, Natural Science, and other studies, or for formal compositions, as letter writing, descriptions, etc., etc. <i>Printed Headings and Single Ruled Faint Lines..</i> Outside Measure, $7\frac{3}{4}$ x 9.

BOOKKEEPING.

INTERNATIONAL COLLEGE BLANKS.

Prepared by Charles Claghorn, Principal of Bryant & Stratton Commercial College, Brooklyn, N. Y. (*Copyrighted.*)

This Series of Bookkeeping Blanks has been specially prepared for use in the International Chain of Commercial or Business Colleges in the preparation of Students for actual business pursuits. They are adapted to all Business Colleges, Academies and Schools, and may be used with any Text Book.

The *Practice Books* (Journal and Ledger) are designed for elementary work in practicing forms, before entering the same in the regular books commonly used in connection with the Small Set. These Books are simply stitched together.

The *Small Set* is designed for a short course of Study, and for the elementary work of a more extended course. This and the other Sets are neatly bound with Printed Manilla Covers.

The *Commission Set* and the *Banking Set* are designed for a special course of Study in each of these particular branches of business.

The *Columnar Journal* is an improved form combining Day Book, Journal and Cash Book, saving labor in posting.

The *Large Books* (Journal and Ledger) are for general use in an extended course. They are substantially bound and contain material enough to answer for all the Journal and Ledger work of a full course of Study. They are adapted for actual Business as well as School purposes.

The *Business Forms* are for use in any course of Study whether short or extended, and for "Business Practice" as carried on in Business Colleges, and are adapted for use in correspondence between Colleges as well as for limited actual operations.

All these Blanks are of first quality paper, with Special Rulings, neatly executed, to conform to the particular purpose of each book.

THE BRYANT & STRATTON BLANKS.

(Copyrighted.)

The Blanks of this Set are more especially arranged for use with Packard's New Bryant & Stratton Bookkeeping Text Books, published by Ivison, Blakeman, Taylor & Co. They are on the same general plan as the International College Series, but contain new features in an increased number of books and additional Sets.

In this Series the "*Small Set*" is the *First Business Series* of the Bryant & Stratton Counting House Bookkeeping Text Book. It is also designed for use with the Bryant & Stratton Common and High School Bookkeeping, and may be used for elementary work with any Bookkeeping Text Book.

The *Second Business Series* is new. It is arranged for the Second Business Series of the Bryant & Stratton Counting House Bookkeeping Text Book, but may be used with memoranda of any Text Book. The Columnar Journal is added to this Set.

The *Dry Goods Set* is also new. It is the most recent and practical set of forms for a large Wholesale Dry Goods Series, and are especially adapted to the Dry Goods Set in the Bryant & Stratton Counting House Bookkeeping Text Book.

To the *Commission Set* a Ledger is added.

The *Books for General Use* comprising a Ledger, Journal and Index are also new.

All of these Books are of first quality paper, and are specially and neatly ruled for the purpose for which they are intended.

PENMANSHIP.

For our regular line of Plain Copy Books, see Page 28.

WILLIAMS & SOUTHERLAND'S SYSTEM.

Patented Copy Books—In Graded Series.

By John D. Williams; Revised by B. D. L. Southerland, Principal of Grammar School, No. 3, New York City.

This Graded Series of eight books presents in the most convenient, attractive and economical form, a complete COURSE OF INSTRUCTION IN PENMANSHIP, suited to the needs of all grades of Schools. Their excellence is attested by the fact that they are in use in the Schools of New York, Brooklyn, Poughkeepsie and Yonkers, N. Y., Jersey City, N. J., Pittsburgh, Pa., and numerous other localities.

The arrangement of the copies in this Series is calculated to assist the teacher in securing a careful, exact and practical style of Penmanship, if the class is properly trained to write slowly, cautiously, and neatly.

"Quality and not quantity" should be the motto of every writer, and the class will show the most approved advancement if led slowly and surely along the course prescribed in this series of copy books.

CHARACTERISTICS.

Setting aside the long, tedious practicing of elements and principles of letters, the revised Patent Copy Books introduce the scholar to the immediate formation of letters, then words, and next simple sentences, concluding with Business Forms, etc.

Recognizing the importance of black-board teaching, with repeated and continued illustrations and explanations of the correct principles and forms of letters and words, this series of copy books has been arranged for a systematic and graded course of writing, in which the teacher shall make effectual and continued use of crayon and black-board, while the scholar understandingly "works up" the copy on trial paper until he is able to write the letter, word or line, perfectly, and then carefully writes the lesson on the page of his copy book.

Trial paper writing is simply the practice work of the scholar attentively training his hand to form the letters of the copy in as perfect a manner as possible.

As this careful practicing of the copy must necessarily produce some mistakes, and possibly some bad work, before the scholar is able to write the lesson in the best style, it is generally done on separate sheets.

At the close of the writing hour the practice paper is put out of sight, or destroyed, that nothing may be exhibited except the results of the hour's work, as displayed on the neatly written pages of the copy book.

It is quite certain that this plan of black-board teaching and trial paper practice before the pupil is allowed to write a line in the book, will produce the most rapid progress and satisfactory results.

The form and shape of the Patent Series are especially advantageous, and the manner of printing the copies allows the pupil to use the entire page without the usual waste of the inner and outer edges of the old-fashioned copy books.

The copies are all new—selected with great care, and arranged with the definite objects of attractiveness, progressiveness, and completeness of practice.

PENMANSHIP.

WILLIAMS & SOUTHERLAND'S PATENT COPY BOOKS.—(Continued.)

With Condensed Instructions to Teachers printed on Cover..

The grades as mentioned are for the New York City Schools.

NEW No.	Old No.	PRICE.	Binding and Description.
		Per Doz.	
		1.20	PRINTED MANILLA COVERS.—With Blotters.
			24 Pages..Extra Paper..Outside Measure, $6\frac{7}{8} \times 5\frac{3}{4}$.
36500	1		Adapted to Third and Second Primary Grades. The elementary book of the revised series is designed to give careful instruction and practice in writing all the letters of the alphabet which are one space in height. The book commences with the simplest letter, and progresses step by step through single letters to simple words of two and three letters.
36502	2		Adapted to First Primary Grade. Commences with an advanced combination of small letters, introducing stem and looped letters in natural order, and closes with a series of carefully arranged words, commencing with the capital letters in alphabetical order.
36504	3		Adapted to Eighth Grammar Grade. Contains a selected series of words beginning with the small and capital letters systematically arranged, introducing all of the more difficult and complex combinations of letters, and forms a complete review writing book following Nos. 1 and 2.
36506	4		 Adapted to Seventh Grammar Grade. Formed of copies arranged alphabetically, selected with great care, to introduce all the difficult as well as beautiful combinations of letters, presenting at the same time a series of words of the greatest interest to the pupil.
36508	5		Adapted to Sixth Grammar Grade. Composed entirely of selected sentences, affording abundant practice of a great variety of capitals and words, forming an excellent drill book in penmanship for classes of the highest grade in grammar schools.
		1.80	ADVANCED SERIES.
			24 Pages..Extra Paper..Outside Measure, $8 \times 6\frac{3}{4}$.
36520	6		Adapted to Fifth and Fourth Grammar Grades. The first of the <i>advanced series</i> , contains a new arrangement of words, having plain and ornamental capitals in each line, with the most graceful combination of letters, making a capital book for specimen or exhibition writing.
36522	7		Adapted to Third Grammar Grade. Is a book of long sentences, selected for practice in the more difficult combinations of letters, making a book of practical sentence writing for presentation as the result of a complete course of Penmanship.

PENMANSHIP.

WILLIAMS & SOUTHERLAND'S PATENT COPY BOOKS.—(Concluded.)

NEW No.	Old No.	PRICE.	Binding and Description.
		Per Doz.	
36524	8	1.80	PRINTED MANILLA COVERS.—With Blotters. ADVANCED SERIES.—(Concluded.) 24 Pages. .Extra Paper. .Outside Measure, 8 x 6¾.
			Adapted to Second and First Grammar Grades. Contains the present business forms of Receipts, Checks, Orders, Bill Heads, Ledger Headings, etc , etc , beautifully engraved, forming a capital finishing book for the pupil about to enter business. The red line at the bottom of the page of each Book is for the pupil's name and the date on which the copy was written.

Suggestions As to the Method of using the Williams & Southerland's Copy Books.

For the *Third Primary Grade, Copy Book No. 1* affords excellent practice in all "the small letters in the order of their simplicity." The copies are to be written in a clear, bold style, giving freedom to the hand and abundant practice in form. If this class finishes the first half of the book in a proper style they will have formed an excellent foundation for the lessons in the classes more advanced.

For the *Second Primary Grade, Copy Book No. 1* can be reviewed from the beginning and written through. This will insure a degree of neatness and perfection of form that will greatly assist the pupil in writing the next book in the following grade.

For the *First Primary Grade, Copy Book No. 2* will give "practice in the entire alphabet. Easy words containing combinations of the different letters progressively arranged. Practice in the Capitals commenced"

For the *Eighth Grammar Grade, a* thorough review of *No. 2* will give the exact requirements. As an advance this class may use *No. 3* with most excellent results.

For the *Seventh Grammar Grade, Copy Book No. 4* will meet the requirements of the course of study, and on a slip of paper, or page of the copy book with the printed line cut off, specimen copies of the sentences called for in the manual can be readily prepared. The extra or specimen copies can be written once a week as a reward for improvement in copy book writing.

For the *Sixth Grammar Grade, Copy Book No. 5*, a book of single sentences, will afford the most satisfactory practice.

For the *Fifth Grammar Grade, Copy Book No. 6* will give an excellent drill in long words, with a variety of capitals. Specimen copies of sentences written on separate sheets of paper, as a reward exercise once a week, will combine advancement and improvement with repeated practice of different combinations of letters.

For the *Fourth Grammar Grade, Copy Book No. 6*, with the writing on the HEAD line instead of between lines, as a review lesson, will give practice in writing without guide lines; then a very careful writing of *No. 7* will give abundant practice in writing sentences without double lines.

For the *Third Grammar Grade, a* complete review of *Copy Book No. 7*, with the most careful practice, and one lesson per week on slips of paper, written from dictation, for specimen copies, will afford a thorough and practical lesson in penmanship.

For the *Second Grammar Grade, Copy Book No. 8* will give the latest forms of bills, receipts, and drafts, and a specimen lesson each week will give all the grade requires.

For the *First Grammar Grade* a very careful review of *Copy Book No. 8* will familiarize the pupil with the language and styles of business forms, and, combined with exercises in specimen writing, will complete a thorough and satisfactory course of penmanship.

PENMANSHIP.

PATENT COPY BOOK COVERS.

For use with the Williams & Southerland's Patent Copy Books.

With folded flaps to fit over the Copy Book Cover.. Designed to preserve the Cover of the Copy Book and keep it clean.. In two sizes to suit the two sizes of the Williams & Southerland's Copy Book.

NEW No.	Old No.	PRICE.	Description
		Per Doz.	
			PRINTED MANILLA.
36550	..	.12	For Small Sizes of Copy Books. Outside Measure, when folded, $7\frac{1}{4} \times 5\frac{3}{4}$.
36552	..	.24	For Large Sizes of Copy Books. Outside Measure, when folded, $8\frac{1}{4} \times 7$.

STEEL PENS.

 For Stylographic Pens, Automatic Pencils, &c., see Pages 102-10.

NEW No.	Old No.	PRICE.	Description.
		Per Gross	
			SOUTHERLAND'S PENS.
			The SOUTHERLAND PEN has been made to supply a demand for a durable, useful, and practical Pen, and it is confidently recommended to all writers, and teachers of writing, as the very best series of Pens now in the market.
36570	2	1.00	..Elastic Pen. For use in the intermediate Classes, for pupils able to control their hand in writing. Will write a clear, even line with delicate, graceful shading.
36571	3	1.00	..Double Elastic Pen. For the best writers in all schools. A fine, flexible, smooth-pointed Pen, cut for the neatest, finest writing, having the spring and elastic movement of the best quill pen.
			JOHN D'S FAVORITE PEN.
			This Pen, so long and favorably known by the above title, is manufactured of the best steel, and carefully selected. They are particularly adapted for Public and Private Schools and Book-keeper's use.
36580	..	1.00	..One Gross Boxes.
36582	..	1.10	..One Gross in One-Quarter Gross Boxes.

 For the benefit of those who desire to test the John D. pen, with a view to its introduction or use, a single one-quarter gross box will be mailed to any address on receipt of 25 cents.

MUSIC.

 For Music Exercise Blanks see Page 28.

HORTON'S MUSIC COPY-BOOKS.

By D. P. HORTON, Prof. Music, Brooklyn Public Schools.

This series of books has met with a very wide recognition. They have been adopted by the schools of New York and Brooklyn, and the principle upon which Prof. Horton has worked, of combining a great deal of practical work with the gradual development of the theory of music, has received the warmest encomiums from those who are best qualified to judge of its merits—the teachers of music.

The author has divided his work into four books, graded to meet the differing capacities of the student. But in each he has clearly explained his system of Short-hand Notation, which is easily acquired by small children, and greatly facilitates familiarity with the common notation. It is also of great value to accomplished musicians, affording a convenient mode of rapidly noting "inspirations," "perfect gems," etc.

Short-hand notation is fully illustrated in each Book, and made available so that small children take delight in its simple forms and musicians can amplify to their great advantage. Each Book is also provided with an abundant supply of music-ruled paper, and the HELPS TO DAILY PRACTICE make this manual of great interest to all who study music. The books are especially useful—1. For preserving choice selections. 2. As an exercise book both in Classes and Private Teaching. 3. As a help in the practice of copying music, which greatly facilitates sight reading, and which is explained in a few words.

All these Books are of Extra quality paper.

NEW No.	Old No.	PRICE.	Binding and Description.
		Each.	
			FOR BEGINNERS.
			HEAVY MANILLA COVERS.
36620	1	.10	Crown Oblong 8vo..32 Pages..Outside Measure, $6\frac{7}{8} \times 4\frac{1}{8}$. Contains 8 printed pages of "Notes and How to Write Them," and "Short-hand Notation;" the remaining pages ruled for copying music.
36624	2	.10	Crown 4to..36 Pages..Outside Measure, $6\frac{7}{8} \times 8\frac{1}{8}$. Contains "Helps to Daily Practice" and "Short-hand Notation," printed on two cover pages; each page of the book ruled, the upper half of the page ruled for copying music and the lower half for copying verses.
			FOR ADVANCED CLASSES.
			PRESS BOARD COVERS.
36628	3	.25	Crown 4to..48 Pages..Outside Measure, $6\frac{7}{8} \times 8\frac{1}{8}$. Contains same printed matter as preceding, with six additional pages of Exercises; same ruling.

DRAWING.

 For our regular line of Plain Drawing Books, see Page 29.

MELVILLE'S INDUSTRIAL SERIES.

Designed by FRANCIS MELVILLE, Instructor of Drawing in the Grammar Schools of New York City, and the Evening High School.

Melville's Series of Industrial Drawing is very systematically arranged.

The Drawing Books are in graded numbers of six books. Each Book contains from 16 to 32 examples, with figures designating the order in which each point and line is to be made; also, the particular space to be occupied by the drawing of the pupil. These Books are designed for the lower classes, and can be used under the instruction of the class teacher. The Elements of Drawing taught in a systematic manner in all the lower classes, through the medium of these books, is calculated to advance the work in the higher classes.

The Primary Industrial Art is a series of Small Charts, in 21 graded numbers, designed either for Black-board exercise, or for use as copies for the Slate or plain Drawing Book. They are all neatly drawn to scale, printed on heavy durable paper; the examples shown by white lines on a black ground. In this series the drawings represent the simpler forms. Each copy is eyeletted for convenience in hanging. Full instructions for use is printed on each sheet.

The Drawing Charts are an Advanced Series of 19 graded numbers, designed for use in the higher grades. The drawings on these charts are figures and examples of historic ornament that are always useful in any course of study of drawing; they also contain the elements or units of a great variety of designs, as rosettes, borders, surface coverings, etc. These Charts and the drawings on them are in the same style as the Primary Art, but about twice their size.

INDUSTRIAL DRAWING BOOKS.

NEW No.	Old No.	PRICE.	Binding and Description.
		Each.	
		.20	 PRINTED MANILLA COVERS.
			Eight leaves; interleaved. . Outside Measure, 6 x 8½.
36650	1		 Lines, Angles and Figures; <i>Composed of Right Lines drawn in Squares; containing Figures comprised of right lines, as angles, squares, and combination of rectilinear forms.</i>
36652	2		 Figures; <i>Composed of Right and Curved Lines drawn in Squares and Oblongs; containing Figures comprised of right lines, as squares divided into equal parts, right line conventional forms, historic ornament, and borders of right lines, curves and ellipses.</i>
36654	3		 Symmetrical Figures; <i>Composed of Curved Lines, drawn in Squares, Triangles and Oblongs; containing rosettes, conventional flower and leaf forms, circle trefoils and historic ornament. . Oblong. . Each Page containing full Instructions for drawing each design. . With Definitions of Terms used in Drawing printed on cover.</i>

		Each.	
		.50	Outside Measure of each Chart, 18 x 10½.
36684	3		 Right Lined Objects. <i>Two Examples.</i> ..Familiar objects based on the Square and Circle.. <i>Bird-House and Wheel.</i>
36686	4		 Right Lined Objects and Concentric Circles. <i>Two Examples.</i> ..Familiar objects based on the Oblong and Circle.. <i>Cottage and Circles.</i>
36688	5		 Conventional Leaves in Circle and Trefoil. <i>Two Examples.</i> ..Rosettes: Honeysuckle Leaves in the Circle; Lilac Leaves in the Trefoil.
36690	6		 Compound Curves. <i>Four Examples.</i> ..Vases and Vase Forms.
36692	7		 Compound Reversed Curves. <i>Four Examples.</i> ..Vases and Vase forms.
36694	8		 Hexagon and Octagon. <i>Two Examples.</i> ..Symmetrical Right and Curved Lines in Hexagon and Octagon.
36696	9		 Triangles. <i>Two Examples.</i> ..Symmetrical Right and Curved Lines in Triangles.
36698	10		 Circles. <i>Two Examples.</i> ..Symmetrical Right and Curved Lines in Circles.
36700	11		 Semi-Circles and Circle. <i>Two Examples.</i> ..Semi-Circles; Circle on Diameters.
36702	12		 Trefoil and Quatrefoil. <i>Two Examples.</i> ..Trefoil; Quatrefoil.
36704	13		 Hexafoil and Quatrefoil. <i>Two Examples.</i> ..Hexafoil; Simple Curves in Quatrefoil.
36706	14		 Trefoil and Hexafoil. <i>Two Examples.</i> ..Symmetrical Arrangement of Curves in Trefoil and Hexafoil.. <i>See Illustration on Page 131.</i>
36708	15		 Right Lined Objects. <i>Three Examples.</i> ..Objects based on Square and Oblong; Box, Ark, Dog-house.

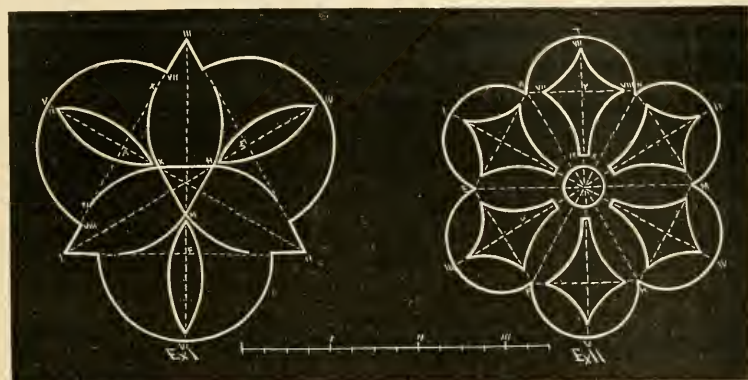

DRAWING CHARTS.

Primary Industrial Art.—Melville's System.—Illustrated.

New No. 36706..Old No. 14.—See Page 130.

The scale at foot of Chart represents $3\frac{1}{2}$ inches; any line or distance on the Chart that corresponds to the distance I, II, on the scale, would be made $\frac{1}{2}$ inch in the pupil's drawing, or, half the distance I, II, would be made $\frac{1}{4}$ inch in pupil's drawing.

CURVES IN TREFOIL AND HEXAFOIL.

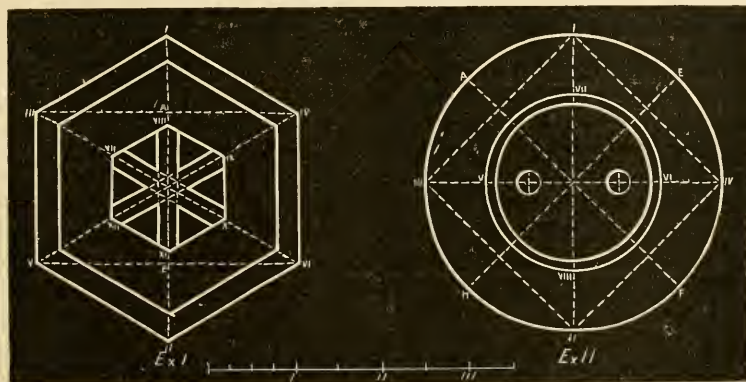

Ex. I.—CURVES IN TREFOIL. Draw the triangle I, II, III, each side $3\frac{1}{2}$ inches. Mark points A, E, F, in center of each side of triangle, and point V, $\frac{1}{2}$ inch from A. Draw line V, A, II. Mark points VII, VIII, each $\frac{1}{2}$ inch from A. Draw the semi-circle. Draw the other two sides in like manner. Mark points K, H, M. Draw the small triangle. Mark points IX, X, XI, and draw the curves from these points. Draw the other two sides in like manner.

Ex. II.—CURVES IN HEXAFOIL. Draw the Hexagon in dotted lines. Draw curves of Hexafoil. Mark point Y and point T. Draw line from T to center of figure. Mark points VI, VII, VIII, IX, X, and draw curves joining these points. Draw other 5 sections in like manner, and the small circle in center.

New No. 36720..Old No. 21.—See Page 152.

OBJECTS BASED ON HEXAGON AND CIRCLE.

Ex. I.—SNOW CRYSTAL. Draw dotted line, I, II, $3\frac{1}{2}$ inches long. Mark point A, $1\frac{1}{4}$ inches below point I, and point E, $1\frac{1}{4}$ inches above point II. Draw line III, IV, three inches long; line V, VI, same length. Draw lines I, III-III, V-V, II-I, IV-IV, VI-VI, II. Mark points, $\frac{1}{4}$ inch from I, IV-VI, II-V, III, and draw next hexagon. Mark points, VIII, IX-X, XI-XII, VII, each $\frac{3}{4}$ inch from center of hexagon, and join these points with lines, VIII, IX, etc.; draw lines inside of this hexagon, parallel to dotted lines, III, VI-IV, V, etc.

Ex. II.—COAT BUTTON. Draw dotted lines, diameters of circles, I, II-III, IV, each $3\frac{1}{2}$ inches long. Draw lines, I, IV-IV, II-I, III-III, II. Draw E, H and A, F, equal to I, II, $3\frac{1}{2}$ inches. Draw circle. Mark points, VII, VIII-V, VI, each one inch from center of circle. Draw smaller circle, $\frac{1}{2}$ inch inside of the last circle. Draw the two smallest circles, $\frac{1}{4}$ inch diameter.

DRAWING CHARTS

Advanced Industrial Series.—Melville's System.—Illustrated.

New No. 36786..Old No. 19.—See Page 135.

CONVENTIONAL LEAVES AND FLOWERS.

The scale at the foot of chart represents four inches ; any line on the chart as large as from I to II on the scale would be one inch in the pupil's drawing.

Ex. I.—MARSH MARIGOLD LEAF. Draw dotted lines I, II, $3\frac{1}{2}$ inches long; III, IV, $3\frac{1}{2}$ inches long and 1 inch above point II. Draw V, VI, 2 inches long. Draw I, III-III, V-I, IV-IV, VI. Draw IX, X, $2\frac{1}{2}$ inches long and $1\frac{1}{2}$ inches above point II. Draw left hand side of leaf. Draw right hand side of leaf, next draw stem and veins.

Ex. II.—MARSH MARIGOLD FLOWER. Draw dotted lines I, II, $3\frac{1}{2}$ inches long; III, IV, $3\frac{1}{2}$ inches long; V, VI, 2 inches long and $1\frac{1}{2}$ inches below point I. Draw III, V-IV, VI. Mark point VII, $\frac{3}{4}$ inch from point III, point VIII the same from point IV. Draw lines from VII to H, from VIII to H. Draw center of flower, then left side and the right side and stem.

Ex. III.—LEAF OF SCARLET PIMPERNEL. Draw dotted lines I, II, 4 inches long; III, IV, $2\frac{3}{4}$ inches long and $1\frac{1}{4}$ inches above point II. Draw I, III-III, II-I, IV-IV, II. Draw left side of leaf first, right side next, and then the veins.

Ex. IV.—FLOWER OF THE PIMPERNEL. Draw dotted lines I, II, $3\frac{1}{2}$ inches long; III, IV, $3\frac{1}{2}$ inches long; V, VI, $2\frac{1}{2}$ inches long and 1 inch above point II. Draw III, V-IV, VI. Mark points IX, X, $\frac{1}{4}$ inch below III, and IV. Draw line IX, X. Mark points VII, VIII, 1 inch above V, and VI. Draw line VII, VIII. Draw center of flower, then left side and right side, then the stem.

Ex. V.—LEAF OF HEPATICA TRILOBA. Draw dotted lines I, II, $3\frac{1}{4}$ inches long; III, IV, 4 inches long and 2 inches above point II. Draw lines I, III-I, IV. Mark point E, 1 inch above point II. Draw lines III, E-IV, E. Mark points V and VI, $1\frac{1}{2}$ inches from point I. Draw left side of leaf first, then right side and stem.

Ex. VI.—FLOWER OF THE SAME. Draw $3\frac{1}{2}$ inch circle and divide it in 12 equal parts by diameters I, II, III, IV, etc. Draw smaller circle H, F, E, 1 inch diameter. Draw the next one $\frac{1}{2}$ inch diameter and smallest one $\frac{1}{4}$ inch diameter. Draw the petals of the flower commencing at point I, then draw the center of the flower.

NEW No.	Old No.	PRICE.	Description.
		Per 100	
36796	..	1.50	Heavy Card Board... Measuring Six inches, divided into Sixteenths of an inch.

MAP DRAWING.

SOUTHERLAND'S SYSTEM.

(Copyrighted.)

Prepared by B. D. L. SOUTHERLAND, Principal of Grammar School No. 3, N. Y. City.

Map Drawing in connection with the Study of Geography is of the greatest importance. In its simplest form it should be taught every pupil while studying the primary lessons in Geography, as it serves to impress boundary lines, position, shape of countries, etc., so thoroughly on the mind of the child that remembering the lesson is far easier and more pleasant.

The most practical and thorough method of teaching Map Drawing is by the simple manner of drawing meridians and parallels, and locating every portion of the map according to its latitude and longitude.

In preparing the Primary Mapping Portfolio for use in the middle and lower grades of our Schools and Academies, the auxiliary or intermediate meridians and parallels were employed, as they are used by all practical map-makers, and they afford the greatest assistance in drawing the distinctive outlines and divisions of the map.

In the Primary Series the maps are double, on one side is the Copy, and on the other side, facing the copy, is an outline with the meridians and parallels drawn in, to assist the pupil in drawing the details of the copy.

The Advanced Series has been prepared not only with the view of presenting the best models for the Scholars, but also to assist the Teacher. In this series there are no copies, but outlines with meridians and parallels. The maps can be drawn from any Geography that presents correct outlines, clearly and distinctly defined.

The Pattern Maps and outlines have been carefully engraved, printed on the best drawing-paper, and arranged in such a manner and form that all the maps may be used in classes studying any Primary or Intermediate Geography. Each has the title neatly engraved on it, and on the outlines space is left for the name of the pupil.

The maps may be drawn and colored in school under the direct supervision and instruction of the teacher, or at home by the pupils, who may be required to draw the map from which they are studying or preparing the regular lesson.

The engraved Pattern Maps, or the copies drawn by the pupils may be used to great advantage in the class lessons on "Outline Maps."

Using these map sheets will encourage habits of neatness, cultivate the perceptive faculties, and train the hand in neat, precise work, as well as render the usually uninteresting geography lessons attractive and practically useful.

The maps, both of the Primary and Advanced Series, are put up in Portfolios or Envelopes of Strong Heavy Manilla, and accompanying each are full directions for drawing and coloring all the maps which comprise the most important divisions and countries of the world; the directions covering the special points of Materials; Preparing the Colors; and Instructions in Drawing and Coloring.

MAP DRAWING.

CARDWELL'S NEW SYSTEM.

Prepared by GEORGE A. CARDWELL.. (Copyrighted.)

This is a Series of three books designed to simplify the work of Map Drawing for the pupil. They are ingraded numbers,—No. 1, Primary; No. 2, Intermediate; No. 3, Advanced. In each book the maps are on one page; the opposite page being left blank for copying. Each book has printed on the inside cover pages Directions for Map Drawing and Coloring, and Definitions of Nautical and Geographical Terms. All are on Super quality paper.

NEW No.	Old No.	PRICE.	Binding and Description.
		Each.	
			PRINTED MANILLA COVERS.
36870	1	.20	 Primary. <i>Contains Maps of—1. The World; 2. New England States; 3. Middle Atlantic States; 4. South Atlantic, Gulf and Western States; 5. North America; 6. South America; 7. Europe, Asia and Australia; and 9. Africa.</i> Crown Oblong 4to..16 Pages..Outside Measure, $8\frac{1}{4} \times 6\frac{7}{8}$.
36872	2	.30	 Intermediate. <i>Contains (on an enlarged Scale) Maps of—1. The World; 2. New England States, with the City of Boston; 3. Middle Atlantic States, with the City of New York; 4. SCHOOL PUBLICATIONS.

NEW No.	Old No.	PRICE.	Binding and Description.
		Each.	
37000		1.50	THE SCHOOLMASTER OF THE NINETEENTH CENTURY. A full guide for the natural development of the mental powers of childhood, adapted to the wants of American classes in the primary department.. Translated from the German. Cloth, Gilt.. 12mo.. 152 Pages.. Outside Measure, 5$\frac{1}{4}$ x 7$\frac{5}{8}$. <i>Extract from "The National Journal of Education," Boston.</i> "The Teachers of America will find this book of more value to them at this particular epoch in the history and progress of their work, than anything of a similar character in print. It is emphatically a 'new departure' guide for the natural development of the mental powers of childhood, and especially adapted to the wants of Teachers in the elementary grades of schools in America. * * * This is a work of great merit, and should be in use by every Teacher in America."
37020		.25	THE GRAMMAR SCHOOL WORD BOOK AND ETYMOLOGY. A graded selection of miscellaneous words, and a full exposition of prefixes, suffixes, and the most important Latin and Greek roots. It is thorough and practical. Half Bound Paper.. Royal 18mo.. 76 Pages.. Outside Measure, 4$\frac{5}{8}$ x 7$\frac{1}{8}$. This little book, by EDWARD ALTHAUS, which has been unanimously adopted by the Boards of Education of New York City and Brooklyn for use in the public schools of those cities, presents several new features and has quickly gained the approval of all teachers desirous of lessening the drudgery of their own and their pupils' labor, and at the same time, of increasing the efficacy and usefulness of their work. 1. It is not a spelling book in the usual sense of the word, but a graded arrangement of all those words which are usually or frequently misspelled, leaving out a great number of unusual and unnecessary words without practical value and found in Spellers and Dictionaries only. 2. Geographical, historical, biographical, and scientific words in general use are included; also common abbreviations. 3. In its etymological portions, the treatment of suffixes and prefixes, and in the selection of Latin and Greek roots, the author has been guided by the desire to combine strict gradation and practical usefulness with completeness and scholarly accuracy, giving throughout the book the results of the labors of the most celebrated students of comparative philology.

			SOUTHERLANDS' TABLE BOOK.
			An Arithmetical Table Book, Arranged by B. D. L. Southerland, Principal of Grammar School No. 3, New York City, for Scholars of all grades.
37040	..	.20	Half Bound, Paper. ..16mo..48 Pages..Outside Measure, $4\frac{3}{4} \times 6\frac{1}{4}$.
			A comprehensive yet simple and concise, Arithmetical Table Book has long been needed among our school publications to assist pupils in mastering the denominations and applications of the Measures and Weights used in practical every-day life, and assist them in working out the problems of our Common School Arithmetics. To meet this want, and present the latest and most complete standards and varieties of Measurements and Weights, this Table Book has been compiled by a practical teacher, and is dedicated to the earnest, interested members of the profession, with a hope that it will serve to make the teaching of Arithmetic less arduous and less troublesome.
			In use in the Public Schools of New York and Brooklyn.
			HAND BOOK OF SELECT SENTENCES.
			Prepared by Professor William Harkins, to accompany the " <i>Universal Graded Grammar Blanks</i> ," with Suggestions for their use. (See Pages 132-3.)

THE AMERICAN PLANT BOOK.

By HARLAN H. BALLARD and S. PROCTOR THAYER. (*Patented.*)

The difficulties which have surrounded the Botanical Student in his attempts to preserve his Specimens and keep them accessible has led to the presentation of this series of books to the public. It is Herbarium and Analysis combined. Each book is provided with a wallet or pocket, and contains a supply of gummed paper, which is always ready for use in any climate or season, and is carefully ruled to facilitate the cutting of such strips as may be necessary. Always ready, they do away with the necessity for preparing paste, sticky fingers, etc., in the same degree in which Mark Twain's celebrated Scrap Book has relieved the collectors of printed and pictorial matter.

A representation of the Poison Ivy and Sumach precedes the title page, which is followed by full directions for Gathering, Pressing and Mounting Specimens.

SCHOOL PUBLICATIONS.

THE AMERICAN PLANT BOOK.—(Continued.)

This book has been made because very many people want one like it, and have thus far been obliged to make it for themselves.

It affords a rapid and easy method of preserving and describing flowers, ferns, leaves and grasses.

By the use of the gummed paper at the end of the book, it is as easy to fasten a flower to its place, as it is to put a postage-stamp on a letter.

As the Editor of the *Index Rerum* remarks:—

“The idea of publishing blank sheets is not very cheering to the fame of authorship, but mortified pride may have this consoling reflection, that many who fill out their sheets had better have left them blank, and that each one can fill out this book more to his own satisfaction and benefit, than the most gifted mind could do for him.”

SCHOOL PUBLICATIONS.

THE AMERICAN PLANT BOOK AND PRESS. — (Concluded.)

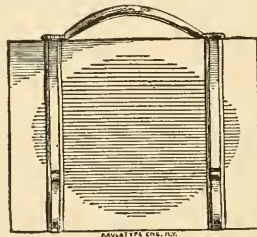

HOW TO USE THEM.

PRESSING.

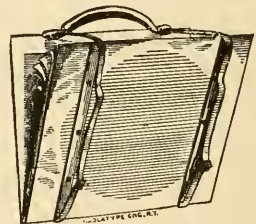

After Plants have been gathered and dried, they must be pressed. To help the student and amateur in this important work, the Authors and Publishers of the AMERICAN PLANT BOOK have devised and manufactured a Botanical Press, which, they believe, combines convenience with practical utility.

The accompanying illustrations give a very clear idea of its appearance: No. 1 representing one closed, and ready to be carried in the hand; No. 2 representing one partly open, and showing the drying paper.

No. 1.

No. 2.

The outside is made of perforated or slotted Birch Board, and has a very handsome appearance. Inside of these boards are placed thick sheets of bibulous paper, which will thoroughly extract the moisture from the plant or leaf. The whole is fastened together with strong straps which can be drawn as tightly as may be desired. A leather handle, similar to that of the ordinary valise, makes it easily portable.

Specimens should be put to press as soon as possible after they have been collected. Each leaf should be smoothed and held in position by the finger or by bits of glass, until the paper has been pressed down upon it. Doubled leaves and crushed corollas give a careless appearance to the work, though there are naturalists who, in their zeal for science, scout the idea of beauty, and care for nothing but dried and labeled accuracy and fullness. When properly treated, pressed flowers retain a large degree of their native grace of form, and richness of color.

Roots and branches which are too thick to be pressed entire, may be thinned with a sharp knife to a section not much thicker than the leaves. The petals of heavy flowers, like the water-lily, may be pressed separately and put together again when dry.

MOUNTING.

After the specimen is thoroughly dry, it may be transferred to the Plant Book, and labeled as the blanks suggest. The plants are to be fastened to the page by narrow strips of paper gummed over them at convenient intervals.

Cut off a strip of the gummed paper found at the end of the book. The ruling on the back will be a guide for cutting. In some cases it will add to the neatness and firmness of the work to touch the underside of a leaf with mucilage taken up on the point of a pen-knife.

No. 6.	No. 4.

SPECIAL BOOKS

NOT ON LIST,

Made to Order for the Trade.

Auction Blotters,
Collection Books,
Cotton Weighing Books,
Bank Work,
Field Books,
Engineer's Level and Transit Books,
Hotel Registers,
Insurance Work,
Policy Registers,
Order Books,
Way Bill Books,
Railroad Work,
Stock Ledgers.
Royal, Super Royal and Imperial Blank
Books.

SPECIAL BINDINGS, OF ANY DESCRIPTION,

INCLUDING

Extra Ends and Bands,
Extra Ends and Bands and Fronts,
and Full Russia.

TO THE TRADE.

(From our Catalogue for Fall of 1883.)

In presenting our Descriptive Catalogue for the Fall of 1883, we desire to call special attention to the series of new numbers which have been given our whole line of goods, and to add a few words of explanation.

Many of the old numbers appearing in our last Catalogue were first used on the original establishment of this business in 1854, under the name of Ellis & Slote, and have been continued through the successive changes of the firm title: in 1857 to Daniel Slote, in 1861 to Slote & Woodman, in 1867 to Slote, Woodman & Co., and in 1878 to its present style of Daniel Slote & Co. Thus, some of these old numerical designations have done service for thirty years. Since the beginning, but more particularly of late years, constant additions of new numbers have become necessary for new lines of goods, and to prevent confusion, when old lines have been dropped the numbers used for such lines have frequently been abandoned. Then too, custom sanctioned the use of duplicate numbers in different lines. Our numbers have thus become greatly confused, and now a complete remodelling seems imperatively necessary.

In the work of re-numbering, we have been compelled not only to consider the experience of the past, but to anticipate, to some extent, the necessities of the future. Experience has taught us that there is a great advantage in having a separate and distinct number for every item of merchandise in any way differing from another, and which is put in a separate package. Mindful of this fact, we have adopted a special number for every separate item throughout our entire line, carrying out that system even to all the different Rulings and Thicknesses of Half and Full Bounds, as will be found more fully explained on page 44.

In all classes of goods sold by quires, any given number as now used expresses only one thing, and can, by no possibility, be confused with anything else. In small goods, an even number uniformly expresses the ruling of \$ & c., the other rulings being numbered odd.

The new plan will be found to save our customers some labor, particularly in small orders. And in telegraphing, of which facility our customers now so frequently avail themselves, it will prove of special advantage; preventing misunderstandings which so frequently occur, saving time now consumed in explanations, and also lessening the expense of using the telegraph.

Naturally, we wish to avoid having to do this work over again, for many years to come, if ever. The provision for future additions to the stock, especially in the lines of small goods, without disturbing numbers now adopted, and the need of distinctness in the designation of the more important stock, necessarily leaves a great many blanks in the line of numbers, and has necessitated the use of as many as five numerals. But we have thought the disadvantage of using high numbers of little consequence compared with the other manifest advantages of the system, deeming it more important to have our goods numbered separately and distinctly, now and hereafter, than to attempt to economize in the use of figures.

Hereafter our goods will be all renumbered in accordance with this Catalogue, the usual description (and for the present, the old number) being continued on the labels.

We call this system of renumbering new, though it is really only new with us as applied to Half, Three-quarter and Full Bound work. Previous to 1881 our Letter Copying Books were not numbered, and were ordered wholly by description. In our Catalogue of that year we tried the experiment of applying to this particular line a system corresponding with that which we have now carried throughout. Each Letter Book, in any way differing from another, whether in size, binding, quality or thickness, was given a distinctive number, care being taken that the last figure should always represent the hundreds of pages in the book. Instead of ordering, $\frac{1}{2}$ Im. Russ. Letter Books, 10x12, 300 pages, as formerly, the order now reads: 30113,—the 30100 expressing the line, and the last figure (3) the number of hundred pages.

This initial attempt at simplifying the system of numbering, (with some other minor efforts in the same direction,) has met with such marked favor that we feel fully justified in its extension, and believe that it will so commend itself to the trade generally that we shall be fully compensated for the great trouble and no inconsiderable expense its execution will cost us.

DANIEL SLOTE & CO.
